Ensure that you pick the proper team to record each goal for

What period was the goal scored in

What time is on the game clock when the goal is scored

The referee will tell you who scored and if there are assists. Just write down the numbers that the referee gives you in the proper column

Note: it is helpful to keep a scrap piece of paper on hand to write down the time on the clock when the whistle blows and then record the information as the referee gives it to you and then you can take the time to ensure that you are entering the information in the proper location.
